

Manthan Patil

Virār, Maharashtra, India

Full-Stack Developer | AI App Builder | Computer Engineering Diploma Student

GitHub: <https://github.com/manthan-patil-dev>

Profile

Computer Engineering diploma student focused on building internship-ready and commercial web products using React, Next.js, backend systems, databases, and AI integrations. Interested in full-stack development, cloud-connected apps, healthcare technology, e-commerce platforms, and practical AI workflows.

Skills

- Languages: JavaScript, TypeScript, Java, Python, SQL
- Frontend: React, Next.js, HTML, CSS, Tailwind CSS
- Backend: Node.js, REST APIs, Prisma ORM, Supabase
- Databases: PostgreSQL, SQL
- Tools: GitHub, VS Code, npm, Docker, Vercel
- Other: AI API integration, prompt-based prototyping, terminal workflows

Projects

Hospital Management System

Built a hospital workflow platform using React, Next.js, Supabase, and Prisma for managing records, appointments, and operational flows.

FakeNews Buster

Developed a fake news detection web application using Python and Streamlit, with plans for transformer models, multilingual support, browser extension features, and API expansion.

Lumina AI Study Companion

Created a hybrid AI chatbot in Python using Google Gemini API and rule-based logic for context-aware academic support, with secure environment handling and documented GitHub deployment.

E-commerce Projects

Worked on multiple commerce-focused builds including car parts, fashion, and travel-inspired product platforms.

Experience

JPMorgan Chase Virtual Software Engineering Internship

Completed a virtual software engineering internship focused on backend systems and engineering workflows.

MasterCard Virtual Cybersecurity Analyst Internship

Completed a virtual cybersecurity analyst internship covering analysis and security-oriented problem solving.

Education

Diploma in Computer Engineering, 4th Semester

Currently pursuing technical learning in AI, ML, cybersecurity, databases, cloud workflows, and backend engineering.

Interests

- Full-stack web development
- AI/ML application development
- Cloud infrastructure and databases
- Healthcare technology
- E-commerce platforms
